

# AIR KEYBOARD

## Wireless 3D Mouse Keyboard

Beyond Limitation, Easy Installation  
Plug & Play

### MINI SIZE MAXI FEATURES

Everything you need to control your PC or laptop computer, all built into one easy to use, powerful unit.

### FULL QWERTY KEYBOARD

A small size doesn't mean a keyboard that's light on features. All the buttons you need, and then some.

### INBUILT 3D MOUSE

The full keyboard is complimented by a full 3D mouse. Controlled by movement, just like some gaming console remotes.

### WINDOWS AND MAC COMPATIBLE

From Media Centre to Front Row, you'll be able to control every detail of your PC from the comfort of your couch

### How it works.

Simplicity at its best, at its heart, a keyboard and mouse built into one, compact design. With all the keys you need from a normal keyboard, it's the best interface for a computer plugged into a TV. Browse the web, check e-mails, control your media centre software. If you can do it with your PC, you can control it with this PC keyboard and mouse

### Wireless keyboard and mouse with an amazing range.

Forget connection problems. Forget setup problems.

Simply take the USB connector, plug it into your Mac, Windows or Linux computer or laptop and it's connected. Wirelessly. And with an amazing range of up to 50 metres

### A modern, compact design.

With it's smooth, curved finish, ergonomic design, and brushed metal detailing effect,. It's mini. Only slightly bigger than an iPhone™ you can forget the inconvenience of having to use a bulky keyboard or mouse, but without sacrificing ease of use.

### A really magical mouse.

This unique keyboard has an inbuilt mouse of the magic kind. But it doesn't use the standard trackpad or trackerball. Instead it utilises the same 3D control concept as the Nintendo Wii™. Simply raise, tilt or turn the keyboard and the **3D mouse** follows.

And just to ensure things stay easy the Air keyboard features left and right click mouse buttons; easily accessed via your index fingers they're designed to be as simple as a game controller.

### In the box.

The Air keyboard and 3D mouse combo is plug and play out of the box, and here's what you'll find in that box:  
the Air keyboard (in black or white - it's your choice)  
Air Dongle, 2 x Duracell AA batteries , a user manual
